

World Oil®

ADVANCES IN DRILLING

Wellbore seal control & monitoring for DW MPD; High-tolerance threaded couplings; Machine learning-based tech selection; e-drilling and rigs in the Bakken; and more

REGIONAL REPORT: MIDDLE EAST

Production cut extension tests regional compliance

CARBON CAPTURE

CCUS: From skepticism to solutions; Maximizing soil-based carbon credits

RESERVOIR MANAGEMENT

Advanced model for hydrodynamic analysis and development planning

Gulf Energy®

CONTENTS

OCTOBER 2023 / VOL. 244, NO. 10

SPECIAL FOCUS: ADVANCES IN DRILLING

Wellbore seal control and monitoring enhance deepwater MPD operations

A. Johnson

Where do you want to invest your money?

G. Plessis / K. Cunningham

High-tolerance threaded couplings surpass API standards

D. Williams

The evolution of one run intervals

S. Anderle / A. Peldunas

Optimizing BHA and fluid selection with a machine learning-based drilling system recommender

G. Skoff / F. Mahfoudh / C. Jeong
S. Makarychev-Mikhailov

Rig electrification drives down emissions, bolsters efficiency while improving onshore drilling economics

L. Trueheart / C. Stopkoski

REGIONAL REPORT: MIDDLE EAST

Israeli-Hamas war stresses market, tests Saudi-led production cuts

J. Redden

CARBON CAPTURE

CCUS: From skepticism to solutions

R. Berra

Using science-driven measurements to maximize soil-based carbon credits

T. Shokanov / Q. Guo / J. Oliver

RESERVOIR MANAGEMENT

An advanced model for hydrodynamic analysis and development planning of reservoirs: A case study in southwestern Iran

S. Pourmorad / S. Abbasi
A. Mohanty

MANAGEMENT ISSUES

Dallas Fed: Activity sees modest growth; outlook improves, but cost increases continue

M. Plante / K. Patel

COLUMNS

First oil

Upstream situation in Eastern Mediterranean deteriorates

What's new in production

Call for intervention

Oil and gas in the Capitals

Climate lawsuits pile on the industry

Water management

Methane in produced water / VOCs and produced water

Executive viewpoint

Energy, economy and environment: Nuclear's triumphant return

The last barrel

Can't keep a good industry down

STATS AND RESOURCES

Industry at a glance

Advertising sales offices

ABOUT THE COVER

Illustrating our lead theme of Advances in Drilling, it's another fine West Texas sunset on Sept. 1, 2022, as Latshaw Drilling Rig 18 turns to the right while working on behalf of operator Surge Energy. This Permian basin site is just north of the town of Big Spring in Howard County, Texas. Image: Latshaw Drilling Company; photo by Manuel (Manny) Cervantes.
